

# Tin Soldier

## Winger

It's all the same, and then suddenly  
You see the frame, but turn away  
Faces in time, that's when I was your hero  
Wrap my soul in cellophane  
Drown my secrets in the rain  
Johnny comes marchin' home again  
Hey tin soldier, the war ain't over  
Bang bang bang beat the drums of war  
Don't know the name don't know the tin soldier  
Times up, comin' down  
Silver stars watch 'em tumbling down  
We all fall down  
Cold war runnin' through my veins  
Don't know the name don't know the face of  
The tin soldier  
Yeah! Yeah! yeah!  
Come hide inside, come in under  
Do you hear the guns, do you hear the drums  
Wrap my soul in cellophane  
Purple heart hangin' on a chain  
Only the battleground has changed  
Hey tin soldier, the war ain't over  
Johnny comes marchin' home again  
Don't know the name don't know the face of  
The tin soldier
