

# Ultra Love (feat. Dynamite)

Marlon Roudette

How do I know that it's time, that it's real?  
Tangerine skies over roads, over fields  
We are fragile and brave  
We all align the same  
That's how I know that inside there's a steelFeels like I've been running forever  
Now I'm where I belong  
This love is an ultra love  
And now I feel it coming together  
To the sound of a beating drum  
This love is an ultra loveSo don't let this, don't let this go away  
How we're feeling, how we're feeling now, now  
So don't let this, don't let this go away  
How we're feeling, how we're feeling now, now  
Shoulder to shoulder, we gonna take this over  
Breathe in, bringing us closer, up in here  
And there's no way we gonna let this go away  
Time up and let us all sway  
And we feel, ultra love in the air  
Ultra love in the air  
Ultra love in the airLike I have known all these strangers for years  
The voice in the wind blows away every fear  
We are naive and bold, hero is a child you know  
But all of our pain falls away now we're hereFeels like I've been running forever  
Now I'm where I belong  
This love is an ultra love  
And now I feel it coming together  
To the sound of a beating drum  
This love is an ultra love  
So don't let this, don't let this go away  
How we're feeling, how we're feeling now, now  
So don't let this, don't let this go away  
How we're feeling, how we're feeling now, nowShoulder to shoulder, we gonna take this over  
Breathe in, bringing us closer, up in here  
And there's no way we gonna let this go away  
Time up and let us all sway  
And we feel, ultra love in the air  
Ultra love in the air  
Ultra love in the airDon't let this, don't let this go away  
How we're feeling, how we're feeling nowShoulder to shoulder, we gonna take this over

Breathe in, bringing us closer, up in here  
And there's no way we gonna let this go away  
Time up and let us all sway  
And we feel, ultra love in the air  
Ultra love in the air  
Ultra love in the air
