

Our Weapons (feat. Q'AILA)

DM Galaxy

Yesterday we fought our way through hell and back.
Lost in vain we might never return from that.
Clouds are rollin' in let the glorious times begin,
storm is raging. Reload, reload, get your weapons ready for tonight is our battle.
Reload, reload, your gun to shoot through all the mess you made when you left me there to die.
Reload, never give up hope to maybe one day make it up to me.
We're gonna reload... our weapons. We're gonna reload... our weapons, our weapons.
We're gonna reload... our weapons, our weapons. I can't count how many times we made plans to go back home.
We've gone through so much trouble just to move along.
Take my hand we can go through this together,
we can look to find a shelter. Reload, reload, get your weapons ready for tonight is our battle.
Reload, reload, your gun to shoot through all the mess you made when you left me there to die.
Reload, never give up hope to maybe one day make it up to me.
We're gonna reload... our weapons. We're gonna reload... our weapons, our weapons.
We're gonna reload... our weapons, our weapons.
