

Diamond Eyes

Boyz II Men

When we were young, our hearts were strong
And may beat as one, till the day had come
When I thought that you were gone

And then the sun broke, our bodies unfroze
And it turned us both on, girl
Your diamond eyes glowed

When we were young, Our love was strong
We beat as one, till the day had come
And I thought that you were gone

And then the sun broke, our bodies unfroze
And it turned us both on, girl
Your diamond eyes glowed

I would search near and far
Drag the seas and mind the dark
Search through every place I think you are
I would search near and far
Drag the seas and mind the dark
And never losing hope that you be found

And then the sun broke, our bodies unfroze
And it turned us both, girl
Your diamond eyes glowed

Your diamond eyes glowed
Your diamond eyes glowed
Your diamond eyes glowed
