

# Inquiring Minds Want to Know

[MxPx](#)

How you feel depends on what you think about  
What you need depends on what you can't live without  
How you act goes right back to the way you feel  
What you see isn't always what is real So where do we go and what do we do?  
You're asking me and I'm asking you  
To be real with yourself and don't play the game  
Of daily life, it's all the same The way you think depends on what you're going through  
What you create comes from deep inside of you  
What you know makes the difference in what you hate  
What you love depends on how you relate Inquiring minds want to know
