

# A Prisoner of the Past

## Prefab Sprout

I'm a ghost to you now, I'm someone you don't really wish to see  
I'm a ghost to you now, a shadow since you turned your back on me

    Maybe you'll learn why it was I shook

Baby your turn to wear the haunted lookThis ghost is here to stay

    I survived the blast

Get Ready, get ready to pay

    I'm taking you at last -

    A prisoner of the past

    This ghost is here to stay

    He survived the blast

Get ready, get ready to say

    "I've found my niche at last -

A prisoner of the past"Anywhere that you go, I'm going to be the welcome there for you

    Everywhere that you go - be certain that the table's set for two !

    Maybe you'll learn - there's nowhere you can go

Baby you'll turn - as white, as white as snowThis ghost is here to stay

    I survived the blast

Get Ready, get ready to pay

    I'm taking you at last -

    A prisoner of the past

    This ghost is here to stay

    He survived the blast

Get ready, get ready to say

    "I've found my niche at last -

    A prisoner of the past"
