

Trill Friends (Kanye West Real Friends Remix)

Erykah Badu

[Intro]

Uh, friends, uh[Chorus]

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all[Layer 1]

I'm in the kitchen, I'm cooking and mixing and fixing the sauces and I'll call you back

Running around in the city, I'm running I like it, I'm busy so I'll call you back

Flipping the switches and bitches gon' get in your feelings and dealings, I'll call you back

Never the life of the party but I'll get it started, I been this and I'll call you back[Chorus]

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all[Layer 2]

Gon' get in your feelings

Friends, it's a word we use every day

But most of the time we use it in the wrong way

(I'll call you...)

Friends, it's a word we use every day

But most of the time we use it in the wrong way

(I'll call you...)

Friends, it's a word we use every day

But most of the time we use it in the wrong way

(I'll call you...)

Friends, it's a word we use every day

But most of the time we use it in the wrong way[Layer 3 with layer 2 in the background]

(Gon' get in your feelings)

You don't believe in my love

You're missing a good thing

(Gon' get in your feelings)

Because I'm genuine, I'm genuine

If you don't believe in my love

(Gon' get in your feelings)

You're missing a good thing

Because I'm genuine, I'm genuine

(Gon' get in your feelings)[Bridge]

Ain't no need to

Ain't no need to worry

Ain't no need to

Ain't no need to fear

(Gon' get in your feelings)

Ain't no need to

Ain't no need to worry

Ain't no need to

Ain't no need to

Ain't no need to

Ain't no need to

(Gon' get in your feelings)[Chorus]

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all[Chorus with layer 1 in the background]

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all

Home boys and some of them we we wish we never knew at all

Home girls said, some of them we wish we never knew at all
