

# Your Dirty Little Secret

## Global Citizen

YOUR DIRTY LITTLE SECRET  
Un-tag me, un-tag you  
Unlock the back door  
So I can slip through  
Don't get caught out with me  
"Let's try somewhere new"  
Darling your tactics are all so see through  
I'll be your dirty little secret  
I am your dirty little secret  
They can see I'm your dirty little secret  
But pull closed the blinds and let's get on with it  
Poor little me, poor little you  
Poor little lost girl  
You've me to see you through  
Don't get caught seen with me  
Some guy might 'die for' you  
Darling your actions all but kill me too  
I'll be your dirty little secret  
I am your dirty little secret  
They can see I'm your dirty little secret  
But pull closed the blinds and let's get on with it  
Let's get on with it, let's get on with it  
Darling your tactics are all so see through  
Darling your actions all but kill me too  
Darling your tactics are all so see through  
Darling your actions all but kill me too
