The Guardian Way

Cody Siniard

This is my patch I pledge
To wear it 'till the day I die
Allow me to educate you son on the way I live my life
It's all about the kids
We'll do anything to keep 'em safe
That's my code that's my creed
That's the Guardian Way

We've got their backs when they find themselves alone
We step in front When the world stars casting stones
We stand their ground when they're back down
Can't hold their own
When the weight of the world gets heavy we're ready
We're coming in strong.

A shoulder to cry on
Arms to run to
Place to hide
Don't let your silence drown out their cries
We respresent truth, valor, integredty on these two wheels
When no one else will stand for
You can bet your life we will.

By the time we're done
Their whole lives are changed
Well they ain't blood but they become family all the same

We've got their backs when they find themselves alone
We step in front When the world stars casting stones
We stand their ground when they're back down
Can't hold their own
When the weight of the world gets heavy we're ready
We're coming in strong.
