

Me Against Myself

Bad Bones

I had the strenght, the strength to do this
You need guts to be number one
I trained hard so much trained
I have the glory on my skin

Going down to the core
Driving straight to hell
The challenge ask me more
It's me against myself

Me against myself

The fight was tough hard to face
And the fear scream loud in my mind
The engine thunders shakes the frame
The checkered flags don't call you twice

Going down to the core
Driving straight to hell
The challenge ask me more
It's me against myself

Me against myself

And I go down to the core
And I drive straight to hell
And I go down to the core
It's me right now
Me against myself
