Get It Away (Ssd)

Slapshot

Think I'm joking about your smoking
Think it's fair to steal my air
You you you you you take my breath awayDon't cry freedom cause you've stolen mine
Smoke filled rooms make me blind
You you you you you take my breath away.Leave odor on my clothes
Spread your venom up my nose
You you you you you take my breath away.Right to smoke in it's place
Far away from anyone's face
You you you you you get it away.Did you ask if I minded
For my eyes to be blinded
Make my lungs black
From your smoke attackYou're gonna burn you'll learn you'll learn
You're gonna burn you'll learn you'll learn
You're gonna burn you'll learn you'll learn
You're gonna burn you'll learn you'll learnDon't you dare and steal my air
Don't you dare and steal my air
Don't you dare and steal my air
Don't you dare and steal my airDon't you dare steal my air cause I care
