

Anxiety

Joe Nester

No body to run too,
No body to call
No body to save me from this wreaking ball
Inside my head inside my brain
Controlling thoughts driving me insane
so clip my wings n watch me fall
And burn threw sky untill I loose it all
Now itâ€™s to late thereâ€™s no stopping now
Iâ€™ve tried a million times but I donâ€™t know how
So im cuttin up the breaks
As Iâ€™m pickin as mind starts to race
N Iâ€™m trying to erase All the negative thing that canâ€™t change
But my brain is all over the place and really I just wanna stand still
I just wanna live my life without them forcin me to take a pill
I dont Evan understand How Im supposed to be a man
if I canâ€™t evan handle
All the little itâ€™s the little things that are taking place to make me over think
Whatâ€™s this all mean ...whatâ€™s this all mean
Is it all for real or is it all a dream
No body to run to
No body to call
No body to save me from this wreaking ball
Inside my head inside my brain
Controlling thoughts driving me insane
so clip my wings n watch me fall
And burn threw sky untill I loose it all
Now itâ€™s to late thereâ€™s no stopping now
Iâ€™ve tried a million times but I donâ€™t know how

Now I got nothing left to loose and I hate to break the news but
I been sitting up in my room contemplating suicide
cos I feel like thereâ€™s nothing left I can doo
I been trying to talk but nobody listening ainâ€™t no body picking up my calls to hear the bulls shit
Just label me one of the cool kids the problem is their only on the out side looking in
