

# Lord, Somebody Needs You

## The Martins

Lord, Somebody needs you won't you help them through me  
Let me be your hand extended to someone in need  
Consume this caloused heart with tenderness inside  
I can't avoid the hurting I keep seeing with my own eyes  
There's so many people in this world I need to touch  
And I just can't say that I love you if I don't love them as much

Lord, Somebody needs you won't you help them through me  
Let me be your hand extended to someone in need  
There's nothing I've done to earn these blessings that you give  
So help me like you to be unselfish so that others may live  
I don't wanna get so wrapped in my world that I can't see  
That I was broken and so lonely until someone helped me  
Oh, I wanna help somebody

Lord, Somebody needs you won't you help them through me  
Let me be your hand extended to someone in need  
Repeat

Cause their my brothers and I just can't let them down  
Their the lost and dying who's souls must be found  
Oh they got to be found

Lord, Somebody needs you won't you help them through me  
Let me be your hand extended to someone in need  
Repeat

Oh somebody needs you  
Help them through me  
I wanna be your hand extended to someone in need.
