

# The Grench

## Tech N9ne

I hate you  
Can't stand you  
Despise you  
Detest you  
Look away from me when you see me  
Never look into my eyes  
Your infection crowds my daily  
So this can't be paradise  
When you walk don't come my way  
And don't dare honk at me when you drive  
I'm The Grinch, I smell your stinch  
And it is you I so despise  
I can't stand yo persona, the drama, yo marijuana, or yo momma  
I really despise yo am a so comma I disapo who you honor  
I see what you people can offer, I wonder what mommy taught ya  
If it was up to me the G, I wanna sought ya, caught ya and then offed ya  
I hate what you become, hate you have your freedom  
Hate watchin' your reruns, hate givin' you refunds  
I call 'em, how I see 'em, when I see scum, I free from the legions  
Cerebrum, I see none, see your just really dumb  
Hate seein' your whores, hate cleanin' your floors  
Hate doin' your chores, won't be in your awards  
Funk bein' your whore, hunks bein' of course, you punks being endorsed Chumps being assured, dumped being divorced  
To test you like a sickness, I bet you'd like to lick this  
From Texas right to Memphis, built with ex dykes and glimpses  
Of everything I hate, it would be great for you to skate off in a lake  
A beautiful fate, I hope nobody is at yo wake  
Look away from me when you see me  
Never look into my eyes  
Your infection crowds my daily  
So this can't be paradise  
When you walk don't come my way  
And don't dare honk at me when you drive  
I'm The Grinch, I smell your stinch  
And it is you I so despise  
We're livin' in the cold age, road rage  
Dark no sole, no way  
Jose Cuearvo, there goes yo day

Every scare, everywhere, knows bogay  
This life is too soft, haters more true talk  
I hate the way that you cough, hate you when you blew off  
You coofa, your crueller, so cool off  
If we were arm and arm in handcuffs my arm I would rather chew off  
So many reasons why I can't stand you  
The man who's scam is to ban you  
Cram you in the can under land in Grand View  
Damn you if you stand near my farm, I slam you  
Sammain', campaign your family and you  
I'm a monster when it comes to you, conquer every one of you  
Trade tours, paid for, your neighbor  
'Cause they whores, pray for, decor  
'Cause your state will create race wars  
Look away from me when you see me  
Never look into my eyes  
Your infection crowds my daily  
So this can't be paradise  
When you walk don't come my way  
And don't dare honk at me when you drive  
I'm The Grinch, I smell your stinch  
And it is you I so despise  
I hate you when you destroy buildings and kill millions of children  
From black white Chinese Sicilian, I thrill  
When you feel sin, dealin' drugs to billions  
Awaiting your death, miserable until then  
I wanna put my Rebox and get on top of his esophagus  
And watch the Appocolypse drop him in Necropolis  
Never was menogamus, doggin' is, you're botherin' all of us  
Gotta get loose from those to ex to sodomus  
I hate what you stand for, hate all your scandals  
When your life's baned for, I will not burn a candle  
The way you live is not easy to handle  
You vandals toss 666 in your blood sample  
Yo, the world is very different now, no more hugs  
Just shrugs and crips and bloods and drugs  
Not see show no love, never we be equal  
My name is The Grinch, this song is dedicated to the evil people  
Look away from me when you see me  
Never look into my eyes  
Your infection crowds my daily  
So this can't be paradise  
When you walk don't come my way  
And don't dare honk at me when you drive  
I'm The Grinch, I smell your stinch

And it is you I so despise  
Look away from me when you see me  
Never look into my eyes  
Your infection crowds my daily  
So this can't be paradise  
When you walk don't come my way  
And don't dare honk at me when you drive  
I'm The Grinch, I smell your stinch  
And it is you I so despise
