One Million Faces (Remix)

Project Pitchfork

You'll have to face it
If you want to get out
You can't leave it behind
Like a thief in the nightYou won't be released
'cause the world is a mirror
Of what you carry inside
The hours are waiting
For you to come
For as long as you run
There is no time to hide insideAnything is everything
Everything will reach you
With anything you can think of
Because it is on its way to you
A wave won't stop for you
The fire will find you too
A storm will hit us every night
Oh lord, why did they start the fight?
All hears the voices crying inside
It cares for your choices
As it does for the onces killed by your ride(It is true, it is true)Hello Adam, hello Eve
Do you feel happy, do you feel blue?
Are you Adam, or are you Eve?
A new contract was signed for youOne million faces explore the universe (and)
One million children dream of a promised land (but)
One million reasons made them forget the tears (of)
One million people suffer still within the curse (of)
Who lives in hell?
The dog or the wolf?
(It is you you you you)
Hello Adam, hello Eve
Do you feel happy, do you feel blue?
Are you Adam, or are you Eve?
I'm glad that you feel it tooRemember when mom stopped weeping
Or remember when dad stopped beating
All this will stop because we follow a lie
Genetic engineering smells like
Demons sell an apple pie
