

Continual Praise

Yolanda Adams

For all you done and what you gon' do
For all your blessings we give praise to You
Mercy, loving, kindness and grace
For directing our steps and guiding our way So with thankful hearts and spirits
And all of our hands raised
We come to the throne of the Father
And we give You continual praise Continual praise, let us all join together
Continual praise, from the past to forever
We were created like angels to praise Him
To raise Him and lift Him high
So let us all just lift His name high to the sky
As we sing shout with our might in continual praise The sun, the moon and all of the stars
Display the awesomeness of our God
His marvelous works and awesome display
His mighty acts we witness everyday So with thankful hearts and spirits
And all of our hands raised
We come to the throne of the Father
And we give You continual praise Continual praise, let us all join together
Continual praise, from the past to forever
We were created like angels to praise Him
To raise Him and lift Him high
So let us all just lift His name high to the sky
As we sing shout with our might in continual praise Continual praise, let us all join together
Continual praise, from the past to forever
We were created like angels to praise Him
To raise Him and lift Him high
So let us all just lift His name high to the sky
As we sing shout with our might in continual praise Let your praise go on, praise go on
Let your praise go on, praise go on
Let your praise go on, praise go on Praise go on
Praise go on
Praise go on
I let it go on, let it go on, let it go on, let it go on Let your praise go on
Let your praise go on
Let your praise go on For all He's done, you oughta praise Him
For what He will do, praise Him
For wakin' you up, praise Him
Starting you on your way, and letting you see another day
Praise Him, praise Him
