I came back around, I came back around
I came back around, Carter muthafuckaIt's the Carter man, yeah
Right now we still in the kitchen man
You checkin' out them bitches booties right
I knowYeah, but lets move on man
I got plenty more house to show to show you man
Plenty more Carter to give you
You know, let's go manNow let me show you upstairs
Got the glass house floor to let me know who up there
Look down and you see your reflection
You ain't gotta know who down here, you just know you protectedHey man, how I don't know you connected
Here's a little more fiend let me see you inject it
That's right little wode respect this
Understand me or get 'cha mammy a death wishPart one, part two, part three
All the parts of "Godfather" all a part of me
If you, look to the wall ya' see
A few, gagged up, tied up scared pricksGot 'em, facin' the wall like they was on "Blair Witch"
I ain't, chasin' at all but it get scary 'bout my chips
And in here is where I keep the bricks
Acknowledge lil' Marley in the hallway he got the clipsDon't shoot 'em Marley yeah, this my lil' dude Marley man
He hold me down, know what I'm talking 'bout
