

# Cocktail Party Effect

## Echo Orbiter

Liarâ€™s peer, this is a wonderful view here  
Phantom queer, the tiniest solemn careful laugh  
Perfect jerk, the test goes on and on by itself

Out flew a flame  
Dark comes and no one knew its name  
Dark goes and gives way to that flame  
Soft air, tastes of evergreen

Confidential, Sick Confession, Cries of infants, Leaked from the wounds

With a voice peeled to the bone  
Choke, to go another 30 years  
When in a chair before a fireplace you forsake oxygen  
(and crawl beyond existence and mortal Earth.)

Between the ears, the sense of French conversation  
Neck and neck, sounds are racing from wall to wall
