

Here and Now

COPIA

Never let a choice you've made defeat you
As the stars will all realign
I wish everything could be more see through
Without a roll of the dice to decide

Nothing wants to
Fall into place at the right place
But it all happens in due time

We are here
In the now
Letting go
We are here
This is how
The fight to find our way home

Rationality impaired
All the reasoning is dead
When we're thinking outside of the square
Reaching out to the unknown
Taking chances that will lead us
To a place where our fear awaits

We are here
In the now
Letting go
We are here
This is how
The fight to find our way home

We won't go under
If we're treading water constantly
Nothing want to
Fall into place at the right pace
But it all happens in due time

We were born into this world
Each day comes with surprise
When we're searching for something
It's best to live without regret

Or else you'll never know
What it all could have been

We are here
In the now
Letting go
We are here
This is how
The fight to find our way home
