Run for the Night (Demo)

Blind Guardian

There comes the last part and end of our old age
With thunder and lightning the dark Lord is taking
The crown of the whole world, his creatures will kill me
Poisons my soul to the end I will fight
But I know that the things that I do are so mean less, oh noI see the hill but it's so far away, I know I can't reach it
But I try it again and again in my dark dreams
He's wasting my last will how long can I stay here
When the mightiest of all will now?Run for the night, burn away
The time of his fall, I've to payVisions of darkness prepared for the last strike
Blood lust their weapons and madness you see feel
Their eyes there's no way out, I'm lost in a dark dream
And losing control to the end I will fight
But I know that the things that I do are so mean less, oh, noI see the hill but it's so far away, I know I can't reach it
But try it again and again in my dark dreams
He's wasting my last will, how long can I stay here
When the mightiest of all will nowRun for the night, burn away
The time of his fall, I've to payYou see them running in the shadows of the night
It is not what it used to be
They've been scared and they've been anxiously tonight
You see them runnin' with the windThey run for the night
Run for the night
Run for the nightRun for the night, burn away
The time of his fall, I've to payRun for the night, burn away
The time of his fall, I've to pay
