

Angels In The Room

Delta Goodrem

I know there's something here
There's more than meets the eye
More strange, more beautiful
Than these words can describe
Don't know how I got here
The past has come and gone
I just know I have found
The place my heart belongs
And I wanna stay
I feel safe here in your light
This must be what heaven's like
Must be angels in the room tonight
So much here in this world
I'll never understand
I'll have to learn to trust
I'll do the best I can
All the mistakes I've made
The wrong turns on this road
Have only led me to your arms
And all I know
Is I wanna stay
I feel safe here in your light
This must be what heaven's like
Must be angels in the room, oh tonight
'Cause I wanna stay
I feel safe here in your light
This must be what heaven's like
Must be angels in the room
Oh, can you feel it too?
Must be angels in the room tonight
