LET'S HAVE A PARTY

I'm gonna tell you what I'm gonna do:
I'm gonna make you look like a fool.
Let's have a party, let's have a party.
You can lose your credits in a day,
you gonna lose your money anyway.
Let's have a party, let's have a party.
I'm gonna show you some funny little rules,
it doesn't take much to show them what you are.
Let's have a party, let's have a party.
Let's have a party, let's have a party,
let's have a party, let's have a party.
In a party there is not that kind of jewel.
I ain't got no rules for putting down a fool.
Let's have a party, let's have a party.
There ain't no way to make up a rule,
there ain't no rules for putting down a fool.
Let's have a party, let's have a party.
Let's have a party, let's have a party,
let's have a party, let's have a party.
Let's have a party, let's have a party,
let's have a party, let's have a party. (fade)
