

Don't Ever Let Me Go

Alesha Dixon

In life the things that we try don't work the first time
It's okay, you've gotta start again and rewind the tape, babe
Get paid, yeah you made a mistake, but you're telling the story
It's okay, take a break 'cause tomorrow's a brand new day So I'm looking high in every place
And following everything within my heart
I thought I could make a difference
I feel like I am falling from the start Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go It's hard to say this but I feel I've fallen down
Fallen down, fallen down
It's hard to say this babe, feel the time has come around
Waited too long, waited far too long Looking high in every place
And following everything within my heart
I thought I could make a difference
I feel like I am falling from the start Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go And I'm just cool, so cool
Just the way I like it
Cool, yes so cool Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
Don't baby ever let me go
