Starfighters (Album Version)

Funker Vogt

A dream finally came true
To wear this special uniform
To join in their company
The best of the bestAlways been a believer
In your own capacity
The training never was too hard
No one could break youReach out for the stars
Your strong will got you here
You walked a stony way
Without the slightest sign of fearWe're starfighters, fly all day and all night
And all that we see is our cockpit light
We're starfighters and we love it so much
It's our obsession, we have the master's touch
