Black Cherry

Tribal Tech

How can it be?
I can taste you now
How can I see?
When you're everything
All the world in one grain of sand
And I've blown it
All my world in one grain of sand
And you own it
Black cherry
Black cherry
Stone
Black cherry
Black cherry
Hearing you say it
I could die
Trembling star
Just reminds me
All the world in one grain of sand
And I've blown it
All my world in one grain of sand
And you own it
Black cherry
Black cherry
Stone
Black cherry
Black cherry
Excite me, ignite me
Oh and you know
I miss you, I kiss you
Oh and you know
Black cherry
Black cherry
Stone
Black cherry
Black cherry
Excite me, ignite me
Oh and you know
I miss you, I kiss you
Oh and you know
