

Fight to Survive (feat. Mr. Lif)

Thievery Corporation

(Mr. Lif)

Verse One:

We set it off in many valuable ways

During the day, at night time

Here's the rhyme Designs we project on the screen seem

To promote dreams

In other words, fuck the smokescreens When like minds connect, frauds hit the deck

You expect supreme intellect on the set

I'm pushing negativity to the outersphere

While my dang gold flow cuts off your outer ear Beware! Of those who keep close to fear

Because they may overlook their own flaws

Pause Give yourself time to explore

Your inner core where the true you is kept raw

Hook One:(x2)

This is a fight to survive

This is a fight to try to thrive

This is a fight for you and I

A fight for getting by, a fight for feeling alive Verse Two:

You're standing at the edge of a canyon

You're thinking expansion

Surveying the land and

Not even realizing that the time is advancing

You see another world in each direction you glance in The energy might become infectious if you let this

Seep into your synapses, then perhaps it's just

A birth of an era

A world much better than the one you found on the ground of your endeavor

Another galaxy filled with planets and stars

*For never-drab die-hard fans sinking the bar *thinking too far

Pause Give it some time to explore

Your inner core where the true you is kept raw Hook Two:(x2)(x2)

This is a fight to survive

This is a fight to try to thrive

This is a fight for you and I

A fight for getting by, a fight for feeling alive *This line in particular eludes me; I'm probably way off.
