Sitting On The Moon

Enigma

I'm sitting on the moon
Watching planet Blue, hello
Looking all around
Rotating without sound
Where are you?
Where are you?
I'm sitting on the moon
Where are you?
I am missing you
I am missing you
I came from very far
A little unknown star, hello
I don't know what to do
It is so cold and blue without you
Where are you?
Where, where are you?
I'm sitting on the moon
Where are you?
I am missing you
I am missing you
Where are you?
I'm sitting on the moon
Where, where are you?
I am missing
I am missing you
Where are you?
I'm sitting on the moon
Where are you?
I am missing
I am missing you
