

# Spanish Heart

## 808 State

Time ain't doing what it used to do  
And how your Spanish heart descends  
It's not real  
And it ain't what I bargained for  
In a deal  
I know will never end  
I would stay up day and night  
if I thought that it would make you listen  
Just to make you both aware  
of this ever changing situation  
I would stay up day and night  
When you're gone  
I'll never be the same again  
It's so strange  
I saw it in the sky  
If I could hold  
the future in my open hand  
I would heal  
Your aching Spanish heart  
I would stay up day and night  
if I thought that it would make you listen  
Just to make you both aware  
of this ever changing situation  
I would stay up day and night  
I feel so good  
when I look at you  
So good  
When I look at you  
I feel so good  
When I look at you  
I refuse to believe  
There was ever a question  
I feel so good  
When I look at you  
So good  
When I look at you  
I feel so good  
When I look at you  
I refuse to believe  
There was ever a question
