

Bad Blood

Supergrass

I'm losing sleep
So I walk these dirty streets
I hear bad blood
Run through this neighborhood I don't get it
This bed ain't filled with romance
This life ain't living
It's screaming in my face, alright I'm on my knees, yeah
Much too late
I don't believe that
Man needs God, thank God And all night long, yeah
The city's dreaming
I can't forget you
You're all I got, my love Oh, in the side street shadows
I gotta hold my head up
There's a stale street stench
The gutter's strangle hold Oh, milk and honey
Won't heal my heartache
I'm gonna take that chance, yeah
And dance through life, alright I'm on my knees, yeah
Much too late
I don't believe that
Man needs God, thank God And all night long, yeah
The city's dreaming
I can't forget you
That's all I got my love, ooh I'm on my knees, yeah
Much too late
I don't believe that
Man needs God, thank God And all night long
The city's dreaming
I can't forget you
You're all I got my love, ooh, ooh
