

Hospital Food

Eels

Comin' through the alley trying to walk without a sound
It doesn't really matter 'cause there ain't no one around
Tip toe through the alley and tip toe through your life
You still got it comin' be it gun be it knife
Next thing you know, you're eatin' hospital food
Karaoke, castration take the wasp alive
He's gonna sting you anyway and take you to the hive
Yesterday was suckin' and tomorrow's lookin' bad
Who knew that today was the only thing I had {What? What? I can hear you, I was, uh} Hospital food
Want some hospital food
Hospital food
Delicious hospital food
In your tribute album to the world you must never forget
To sing the one about the cat who's always gettin' wet
He's always got a problem he's a very bitter dude
And now he is complainin' 'bout his hospital food
Hospital food, it's gonna help the medicine go down
Want some hospital food, gonna take a walk without a sound
A little hospital food, helps spoonful of sugar come up
I want some hospital food, in your blender and in my cup
Hospital food
Hospital food
Hospital food
