All Tied Up

Bricktop

Hey girl, I've been thinkin'
About you in see-through secrets
Crawlin' on my thousand thread count
Down, down, down.
Play, play hard to get at
Cause you know I'll love to chase that
Til you push me on the bed, now start your show
(Chorus)
Baby cause I'm all tied up inside, come save me
I get lonely (I get lonely), I get blue (I get blue)
I want you baby (I want you baby), I need you (all I need is you).
Baby cause I'm all tied up inside, come save me
I get lonely (come and save me), I get blue (come and save me),
I want you baby, I need you (all I need is you).

Lay, lay across my pillow
As you make love to my ego
And you always treat me like a superstar.
Oh, I'm so obsessed
You know I'm such a mess, but
When I see you get undressed and you start your show
(Chorus)
I'm all tied up (girl I get so locked up inside)
I get so blue (oh I need you, you got the key baby, only you can release me now)
I'm all tied up (I need your love, oh I need you to save me baby)
I just need you (oh you've got the key, come on and set me free)
(Chorus 2x)
