

Hello Sunshine

Bruce Springsteen

[Verse 1]

Had enough of heartbreak and pain

I had a little sweet spot for the rain

For the rain and skies of grey

Hello sunshine, won't you stay?[Verse 2]

You know I always liked my walking shoes

But you can get a little too fond of the blues

You walk too far, you walk away

Hello sunshine, won't you stay?

[Verse 3]

You know I always loved a lonely town

Those empty streets, no one around

You fall in love with lonely, you end up that way

Hello sunshine, won't you stay?[Verse 4]

You know I always liked that empty road

No place to be and miles to go

But miles to go is miles away

Hello sunshine, won't you stay?

[Verse 5]

And miles to go is miles away

Hello sunshine, won't you stay?

Hello sunshine, won't you stay?

Hello sunshine
