

Pendulum

Pure Bathing Culture

You're the cat's eye
You're the pendulum
When the orator says
It's your time
You're the one
And all the natives sing
You know it's your time
You're the one Little fears little fears
Whispered in a rabbit's ear
And now you're gonna swing like a pendulum In your mind's eye
You see pentacles
Fortune tellers say
It's your time
you're the one
And your wife she says
Oh you know it's your time
You're the one Little fears little fears
Whispered in rabbit's ear
And now you're gonna swing like a pendulum Little fears little fears
Whispered in a rabbit's ear
And now you're gonna swing like a pendulum It's your face in the mirror
As it changed through the years
Now all you do is swing like a pendulum And you're hollow hollow hollow
So hollow hollow hollow
