

# Who Belongs

## Figure Four

Tear down the walls you create when you claim  
To have open mind  
My message is what I believe  
In this lifeless world that we now live inHow could I keep this  
Freedom I have from you?  
Salvation, it is yours to embraceI heard the words you said, we don't belong  
You try to shoves us out of this hardcore scene  
It's yours, it is mine, we share the same stage  
And I am here to stayOh, I can see all too clear  
Another day I'll be hereNow's the time to realize  
We are not the enemy  
I am not of you but I'm not you  
I'm here for you, goI'll be here beside you
