

Counting Down the Days

Jake Ousley

It's safe to say we know there's something between us.
You and me, were dodging sparks here
We can't get enough.
The stars, you know, they were bright,
last time we were together.
And now these miles between, go on forever, forever
And you're gone now, 'till you get back.
I won't just be waiting

Chorus:

I'll be counting down the days
'till I see your face.
I'll count the whole day through,
won't stop 'till I'm with you.
I'll be counting up the ways
I can make you stay instead.
If I've got to wait,
I'll be counting down the days.

Four hours of highway this morning,
but I'm floating on air.
We painted the town last night
everyone was there.
And I'm gone now, 'till I get back.
I won't just be waiting.

Chorus

I'm twiddling my thumbs,
I'm pacing the room.
I don't need a lot, just need a little more of you.

So I'll be counting down the days
'till I see your face.
I'll count the whole day through,
won't stop 'till I'm with you.

Chorus
