Suffer It All

Advisory - the following lyrics contain explicit language:

Mass inclination will fuel my frustration
And keep all redemption at bay
All indications prove your all mutations
And you all have nothing to sayHate
Down on me
Break
Down on me
Slave
Down on me
Plague
Down on meI can't believe everything you believe perceive
Is rightfully coming your wayTake me back to where I need to go (Inside me)
Show me how to question all I know (Excite me)
You'll come around (And reveal yourself)
You come down (In this best education)
I'll fall down (As we kill ourselves)
When it all goes down (Are you ready to suffer it all?)My aggravation is manifestation
Of all of the shit that you say
This complication will lead to this damnation
Of all those who stand in my wayHate
Down on me
Break
Down on me
Slave
Down on me
Plague
Down on meI can't believe everything you believe perceive
Is rightfully coming your wayTake me back to where I need to go (Inside me)
Show me how to question all I know (Excite me)
You'll come around (And reveal yourself)
You come down (In this best education)
I'll fall down (As we kill ourselves)

When it all goes down (Are you ready to suffer it all?)Take me back to where I need to go (Inside me)
Show me how to question all I know (Excite me)
You'll come around (And reveal yourself)
You come down (In this best education)
I'll fall down (As we kill ourselves)
When it all goes down (Are you ready to suffer it all?)I'll be ready to suffer it all
I'll be ready to suffer it all
