

# Crazy Pop Rock

**Gilberto Gil**

From the city runs electricity in my brains  
From the cars runs gasoline up in my veins  
My blood intoxicated by twenty-seven trips  
My eyes hallucinated by the Holy Ghost I met When I talk  
I cannot talk  
I only gotta sing loud, loud  
A crazy pop rock From the city runs electricity in my brains  
From the cars runs gasoline up in my veins  
I'm part of the problem, I'm not the solution  
I'm really the product of city pollution When I talk  
I cannot talk  
I only gotta sing loud, loud  
A crazy pop rock From the city runs electricity in my brains  
From the cars runs gasoline up in my veins  
Baby, baby, baby, I'm the electric man  
Come and get a shock, I'm the electric man When I talk  
I cannot talk  
I only gotta sing loud, loud  
A crazy pop rock
