

Gemini

The Alan Parsons Project

Watching, waiting, rising, falling
Listening, calling, drifting
Touching, feeling, seeing, believing
Hoping, sending, leaving I couldn't say why you and I are Gemini
If I tried to write a million words a day
I see your shadow coming closer
Then watch you drifting away Watching, waiting, rising, falling
Listening, calling, drifting
Touching, feeling, seeing, believing
Hoping, sending, leaving I couldn't say why you and I are Gemini
We are traveling a million worlds away
I see your shadow coming closer
And watch you drifting away
Watch you drifting away
