Blood Infections

frnkiero and the cellabration

I wanna try
I wanna live all night and burn out bright
I want you to know
What I can't show the outside, it's why I hide
But your friends say I'm no good for you
What do they know?
Please don't listen to a goddamn thing they sayIf tonight's our night baby, just don't hurt me, don't hurt me
I'll give you my heart
If tonight's our night baby, just don't hate, don't hate me
For taking your lightI need a love
I want enough to keep my thirst satisfied
I wanna take your hand
Make you understand my side and our kind
But I know it's hard for you to let go of the world that you knew
Please just close your eyes, we're better off this wayTonight's our night baby, so don't hate me, trust in me
I wanna show you my world
Tonight's our night baby, so don't hurt me, don't hurt me
I'm so scared of what's to comeIn the dark no one hides but me
In the dark no one hides
In the dark no one gets awayEvery night's our night baby so stay with me, be with me, until the end of this worldWe owned the night
