

# It Worries Me

[Frank Sinatra](#)

It worries me you seem to be unhappy  
And that worries me, I hate to think that maybe  
I have made you blue, just what did I do  
Was I mean to you, wish I knew I worry so, if anything is wrong  
I have the right to know  
So while I hold you close and kiss you tenderly  
Tell it all to me, darling can't you see  
Anything that worries you, worries me Tell it all to me, baby can't you see  
Anything that worries you, worries me
