The Pilgrimage

Kansas

Dark and silent brooding, stillness falls

Sounds caress the waiting empty halls

Pilgrims flock from miles around

Seekers in the night abound

All have come to feel the sound of joyPatient eyes are watching from below

Mirror image flashing in the glow

Hands are joined in energy

All approaching ecstasy

Harnessing the power in the airAwesome in their patient majesty

Pouring forth the fruits of harmony

Hands are joined in energy

All approaching ecstasy

Harnessing the power in the air
