

Ballerina Girl

Blue System

She read the news, she was alone
A one-way ticket flight to Rome
She left the town, a lonely child
Breaking out, she's running wild
She's dancing like the majesty
She said, "It's over now"
All the best things in life are free
She'll take it anyhow
Dream on, dream on, ballerina girl
On a clear day, you can see forever
Dream on, dream on, ballerina girl
I wanna stay with you together
Love me like there's no tomorrow
Love me, I'll take your sorrows
Oh darling, here comes your fool again
A fools parade, no helping hand
Like Alice in the Wonderland
A girl like you, a boy like me
A broken flame, eternity
Losing more and more each day
She wins a sea of dreams
Baby, you will guide my way
Baby, oh it seems
Dream on, dream on, ballerina girl
On a clear day, you can see forever
Dream on, dream on, ballerina girl
I wanna stay with you together
Love me like there's no tomorrow
Love me, I'll take your sorrows
Oh darling, here comes your fool again
Dream on, dream on, ballerina girl
On a clear day, you can see forever
Dream on, dream on, ballerina girl
I wanna stay with you together
Dream on, dream on, ballerina girl
On a clear day, you can see forever
