# Shipwrecked

## Locash

Take my worn out back in black record
That old jean jacket I've had forever
Take my first guitar, keys in my car
I've been driving since sixteen
The pictures, the frames
Friends and the names
And make them twenty-one years of memoryI could be shipwrecked on an island
Stranded in the wild
And the only thing that I want is you
I could be crawling through the Mojave
No water left in my body
Praying for the one thing that gets me throughAll I need is you
All I need is you
All I need is youDon't take the one thing that keeps me breathing
Yeah, the only thing that keeps me warm when I'm freezing
When the waves get high, no land in sight
You're the lighthouse in the middle of my nightI could be shipwrecked on an island
Stranded in the wild
And the only thing that I want is you
I could be crawling through the Mojave
No water left in my body
Praying for the one thing that gets me throughAll I need is you
All I need is you
All I need is youAll I need is you
All I need is you
All I need is youI could be shipwrecked on an island
Stranded in the wild
And the only thing that I want is you
I could be crawling through the Mojave
No water left in my body
Praying for the one thing that gets me throughI could be shipwrecked on an island
Stranded in the wild
And the only thing that I want is you
I could be crawling through the Mojave
No water left in my body
Praying for the one thing that gets me throughAll I need is you
All I need is you
All I need is youAll I need is you
All I need is you

All I need is youAll I need is you
All I need is you
All I need is you
