Apple Bush

Alice Cooper

But over in a land that's in my backyard
There're some people who succeed, they don't try hard
Well, they found a way to live with ease
By eating from the bush instead of the treesApple bush, apple tree
Path to eternity
Find you a path and you follow the callApple bush, apple tree
Back to eternity
Cut you a path with a chance you may fallWell, over in a corner, standing there
Telling my house that they haven't a single care
But my house does not listen, it's got a path of it's own
Yet the bush and a tree, never leave it aloneApple bush, apple tree
Back to eternity
Find you a path and you follow the callApple bush, apple tree
Back to eternity
Cut you a path with a chance you may fallSomeday like my house you're going to choose too
If you cut this new path, well, the old one will do
And you live with the people who live with ease
The red apple bush and the blue apple trees
