Dangerous Life

Ima Robot

Say, can't you see?
The outside is a lie
Come inside, we can hide
Out of reachAnd back out the day
We invite you to die
Out of time, out of mind
Tres coolWe're changing
Rearranging
Love with strangers
Such a dangerous lifeIf you wanna die from all the lies
Then say goodbye
Come on, let's go for a little ride
We'd love to help you lose your mind
Come on, let's goWe're changing
Rearranging
Love with strangers
Such a dangerous lifeSay that it's a dream
Tell me I am not involved
Take my name up off the wall
And I won't scream'Cause tonight this is our world
Forget the war and what it's for
Just shut the door
And lose the keyWe're changing
Rearranging
Love with strangers
Such a dangerous lifeIf you wanna die from all the lies
Then say goodbye
Come on, let's go for a little ride
We'd love to help you lose your mind
Come on, let's goWe're changing
Rearranging
Love with strangers
Such a dangerous lifeWe'd love to help you lose your mind
We'd love to help you lose your mind
We'd love to help you lose your mind
We'd love to help you lose your mind
We'd love to, love to, love toIf you wanna die from all the lies
Then say goodbye
Come on, let's go for a little ride

We'd love to help you lose your mind
Come on, let's goDanger, danger, danger, danger
Ooh, it's life
Danger, danger, danger, danger
Ooh, it's lifeWe'd love to help you lose your minds
We'd love to help you lose your minds
We'd love to help you lose your minds
We'd love to help you lose your minds
