Beautiful Woman

Boyz Ii Men

Oh yes
You can find them on the cover of a magazine
The finest woman you'll ever see it would be my fantasy
To have them all surrounding me all of their life, it seems
They wanted things that they can only get from me
The best thing about it all, is I can have it if I only keep dreaming
From the shores of Milan to the streets of Miami, beautiful women
From the beauty salons to the beaches in Maui, beautiful women
From the coffee shop to the restaurants can you hear me?
Every place, every town if you just look around
You'll find beautiful women
Black, Puerto Rican, Haitian, Dominican, beautiful women
Indian, Cuban, Jamaican all of the nations, beautiful women
Eastcoast, westcoast city to the meadow, burbs to the ghetto
Beautiful women from Cairo, to Rio, to Montigo beautiful women, yeah
You know there's no way I could ever be without their sensualities
And everytime I think that I break free it's like they always find me
Everywhere I go, it's like a video you know exactly what I mean
If there could only be 3 more of me
Then I could keep all these beautiful women
There they go doin' what they do to
Make a man go crazy but it just ain't fair
'Cause they've got us in a daze what makes me so amazed
Is that they know it 'cause they're beautiful
