

Crazy

See Spot Run

You feed the fish
And I'll bury the bones
And we will live happily ever alone
I'll come home from work
And tell you more lies
Like how much I'd really like to compromise
You might think this is how it's supposed to be
But I got a feeling it's not good for me
Twisting' and turning' I can't get to sleep
When I know I've been herded along with the sheep
Crazy, I'm not going to lay down
Crazy, I'm no king in your crown
Change me, and I'll only go crazy
Crazy, you're not going to save me
You've got my number
So you make the call
And I'll be the egg teetering' on the wall
Bullwhips and blindfolds
Will only buy time
'Til the old silver starts losing' it's shine
