

Flying

Green River Ordinance

Wanna get lost
In some song
Sing it all night long
Baby, dance with me
I want to tell you about a ride
To the other side
Spread our wings
And we'll reach new heights We're flying, we're flying high
Darling, you look beautiful
Just flying, your hang in mine
Won't you come with me tonight I wanna go down
Baby, we'll go right round
You always loved that sound
Darling, dance with me
No turning back
Honey, it's a fact
Yeah, you and me are right
Where we need to be We're flying, we're flying high
Darling, you look beautiful
Just flying, your hang in mine
Yeah, there's something in the air tonight I see you baby,
Shining like a light in the dark
I feel you baby,
Banging on my engine to start
That look you gave me
Firecracker right through my heart Hey, hey, hey
We're flying, we're flying high
Darling, you look beautiful
Just flying, your hang in mine
There's something in the air tonight Oh can you hear it?
Oh can you hear it? Darling, you look beautiful
Don't get me high and low
Darling, you look beautiful
Don't get me high and low We're flying, we're flying high
Darling, you look beautiful
We're flying, we're flying high
