Forever

Tina Cousins

Tell me why do lovers have to leave
I know it happens all the time
And it's so sad 'cause this time its you and me
I know I'm losing you but I just can't believe it babyJust hold me now, just hold me now
Say you'll stay forever, say the day will never come
Just hold me now, just hold me now
Stay this way forever 'cause we've only just begunTell me why do feelings have to change?
What happened to the love I knew?
Felt it fading a little more each day
And so I'm losing you but I can't take the truth no babyJust hold me now, just hold me now
Say you'll stay forever, say the day will never come
Just hold me now, just hold me now
Stay this way forever 'cause we've only just begunTell me why do lovers have to leave
I know it happens all the time
And it's so sad 'cause this time its you and me
I know I'm losing you but I just can't believe it babyJust hold me now, just hold me now
Say you'll stay forever, say the day will never come
Just hold me now, just hold me now
Stay this way forever 'cause we've only just begun
