

# State is Burning

## Useless ID

State is burning but there's not enough water  
To extinguish, put the fire out  
I support the activist, Nihilists and Anarchists  
Gonna go and tear this wall I'll never vote for anyone  
I don't think elections  
Could ever bring us something  
like the change we need  
Fighting over property  
families and poverty  
One fail state, incomplete! How can I burn in this place so long?  
How come I live with the enemy?  
How can I love when it's hate I know?  
How long will it take till we all agree? Lies piled up like shit  
Someone's always hiding  
All he wanna hear is nothing but the truth  
War is obligation  
it gives you no protection  
STOP! It's destroying you too People of the gutter  
Politician trash  
Only motive is how to get your cash  
They're milking the cow that I call my life  
All our time is running out  
Now is this how we gonna die? How can I burn in this place so long?  
How come I live with the enemy?  
How can I love when it's hate I know?  
How long will it take till we all agree? Now we can waste more time and silently refrain  
Afraid to speak our mind  
It's hard to live a lie  
When all we see is shame and pressure in our lives
